

## ABOUT

I am a Turkish resident living in the UAE and an ambitious Artificial Intelligence student at The British University in Dubai. Eager to join the Coding and Software Development team, I prioritize excellence and am excited about contributing effectively with my coding skills. Additionally, I express my strong interest in working at Dubai Trade Centre, willing to serve as a translator, a host, or in any role that aligns with my skills and their requirements.

## EDUCATION

**HIGH SCHOOL / 2020 - 2022 AL SHOLA AMERICAN SCHOOL**

I was always that 'different' student in my school time. I was enthusiastic, co-operative, working well in a team and do my best to help anyone that needs help with anything. No matter how difficult the thing was, I always enjoyed facing challenges and never give up until I get something right. All my works were always up to date and still so.

**UNIVERSITY / 2022 - 2026 THE BRITISH UNIVERSITY IN DUBAI**

*Bachelor of Computer Science, Artificial Intelligence, December, 2026*

## PROFESSAL EXPERIENCE

### TRAINER / ORGANISER

Recognized for my excellent organizational skills and creative approach, I am the designated event planner in organizations. Colleagues appreciate my ideas and enjoy the events I organize, ensuring an enjoyable experience for all participants. Proficient in collaborative work, I have successfully managed various types of events, combining my detail-oriented approach with adaptability. My passion lies in making each occasion special and memorable, contributing to the positive atmosphere within the team. I have a variety of skills that make me effective in different situations. I'm good at solving problems and making decisions. I can communicate well, both in speaking and writing, which helps me work smoothly with teams. I'm careful and organized in my work, making sure projects are successful. Learning new things comes easy to me, and I can adjust to new situations quickly. I've led teams before, showing I can guide and motivate others. Meeting deadlines is something I'm really good at because I manage my time well. I like thinking creatively to find new and different solutions to challenges.
